

Reading Assignment 1

Material Design

(10 pts)

This assignment is to familiarize you with material design. Material design is among the most important aspects of a mobile app design which is not usually covered in any technical class.

- Go to <https://material.io/>
- Check your group number in material design group.

Your assignment is to read one of following topic assigned to your group, individually, and answer the questions.

1. Environment
2. Layout
3. Navigation
4. Color
5. Shape
6. Interaction

So, for example, if you are in group 3, you are going to read Navigation chapter.

All individuals must also read Introduction, Foundation overview, and Communications.

After reading the topic, choose an app in the following generic domains, based on your group number.

- 1) Travel
- 2) News
- 3) Games
- 4) Health
- 5) collaboration
- 6) Recommendations (movie, magazine, etc)

Write and upload how that app follows or doesn't follow the rules that you've studied. Please provide screen shots in your write up.
